**Subject:** DRAFT IRIS Multi-Year Agenda - CLOSE HOLD  
**Attachments:** draft MYA 12-11-15\_NCEA.pdf

Greetings IRIS Agency Reviewers –

As most of you who attend our monthly IRIS check-ins are already aware, we have been working on publicly releasing an updated multi-year agenda for IRIS that identifies the top priority chemical assessments that the IRIS Program will focus on in the next few years. We initiated this cross-agency effort in June 2014 and received input from every AAship and Region. The IRIS multi-year agenda essentially prioritizes the chemicals on the 2012 Agenda according to the Agency's needs, as reported by you, your colleagues and senior management across the agency.

This multi-year Agenda has been approved by the Administrator, and we have just had our final meeting with OMB. As we near public release, we wanted to provide you with a heads-up and share the most current copy we have. We hope to be able to release this as early as Tuesday of next week. Until then, please consider this a very close-hold item and do not circulate.

Thanks.

Happy Holidays!

Gina
